

## **LIFTEUROP asserts its technical expertise and offers a mobile inspection service for lifting accessories**

*Wiltz, 8 November, 2022.*

**LIFTEUROP, a Luxembourgish manufacturer of lifting accessories, offers an inspection, repair, maintenance and retrofitting service for lifting accessories.**

Thanks to its know-how and experience, LIFTEUROP is able to offer a complete inspection service of lifting accessories to its customers.

In fact, LIFTEUROP's technicians are continuously trained to the product specificities and are authorized to carry out the inspection of lifting accessories (slings, lifting rings, hooks, shackles, lifting beams, etc.) at the customer's premises or in the company's workshops located in Wiltz, Luxembourg.

### **How does an on-site inspection take place?**

When an appointment has been fixed, the technical representative comes on site. The accessories are checked on a test bench installed in a dedicated vehicle, where it can be repaired and put back into service immediately.

Then, LIFTEUROP provides to the customer a marking on the accessory indicating the date of inspection, a delivery note detailing the work done, an inspection certificate as well as an update of the maintenance booklet.

### **Why carry out an inspection?**

All lifting accessories are subject to various regulations that require periodic general inspections to ensure that the accessory remains in conformity. These inspections must be carried out at least every 12 months or more frequently according to the use and the risks according to the European directive 2006/42/EC.

The team of LIFTEUROP accompanies its customers throughout the life cycle of their lifting accessories by carrying out inspections prior to these periodic checks, to ensure that the accessories are in order before the visit of the official control body and to allow safe lifting operations.

If you are interested in the inspection of your lifting accessories, feel free to contact LIFTEUROP by e-mail to [info@lifteurop.com](mailto:info@lifteurop.com) or by phone at +352 26 95 19 1.

-----

Founded in 2010 and located in Wiltz, LIFTEUROP produces and distributes high quality lifting equipment and accessories of the STAS brand, flagship of the French lifting industry guaranteeing the safety of goods and people since 1953. Certified ISO 9001, 14001, ISO 27001 and RSE, LIFTEUROP is integrated in the lifting division of ALIPA Group, a Luxembourg specialist in industrial packaging and lifting, which counts about 150 employees.
